

WS Hampshire Inc.

Over 100 Years of Non-Metallic Material Fabrication

Ryertex Composite Bearings, Bushings, Wear Parts Rolling Mill Products

WS Hampshire partners with your operations, maintenance, and engineering teams with an eye towards reducing cost and downtime by supplying parts made from materials that are better suited for your application and require fewer change outs.

Applications

Strippers/Wipers
Fiber Bearings
Chock Liners
Bearings/Bushings
Slipper Pads/Coupling Box Inserts
EAF Insulation
Re-heat Furnace Insulation
Wear Plates
Entry/Exit Guides (Mill Protection)
Coil Supports
Mandrel Segments

Operating Conditions

High Load
High Temperature
High Wear
Corrosive
Lack of Lubrication

Materials Offered

Ryertex Composite Laminates
Canvas/Canvas Graphite
G3/G7/G9/G11
S/T (Kevlar)
BR60/BR70
FR4
Nylon
Bronze Filled PTFE
Fiberglass Grating Systems

Replace Traditional Materials

Fiber Bearings (Micarta)
Brass/Bronze
Babbitt
Steel
Thermoplastics
