

NONMETALLIC COMPONENTS FOR YOUR MEDICAL CANNABIS CULTIVATION FACILITIES

Manufactured locally in Hampshire, IL

Vacuum & Thermal Molding – High Density, High Impact Strength plastic material

- Growing trays for greenhouse and indoor growing facilities with applications including flood benches, sub-irrigation, and re-circulation systems.
- In process handling trays for cannabis material flow throughout your facility
- Tray sizes range from 24” x 48” to 48” x 84”
- 15+ years of molding expertise for greenhouse and indoor growing applications

Composite Fiberglass - Sheet, Channel, Angle, Rod, Tube, Grating

- Insulation for wet environments
- Non Corrosive Structural Components
- CNC Machining, Milling, Routing, Sawing, Drilling
- Fabricated Parts

Plastic Fabrication - all types of phenolic and thermoplastic materials

- Work surfaces, Wall panels, Dividers, Shelving
 - UV, Fungus and Bacteria resistance
 - Heat, Chemical, Stain resistance
- Forming, Bending
- CNC Machining, Milling, Routing, Turning

OVER 100 YEARS OF NON-METALLIC FABRICATION

W.S. Hampshire Provides Custom Fabricated Services Including CNC Milling & Machining, Die Cutting & Thermal Forming, Rigid CNC, Machining Services, Flexible Fabrication Services, and Plastic Thermoforming Services.

W.S. Hampshire, Inc. is a full line custom fabricator and supplier of non-metallic materials to include electrical & industrial papers and films along with thermoplastics, thermosets and a variety of industrial phenolics, thermal boards and composite plastics. We occupy a 135,000 sq. ft. facility producing high quality, innovative, OEM quality fabricated components as well as small volume make-to-order parts within a job shop environment supported by customize supply chain programs.

We strive to serve you, our customer and realize that we can be valued only as we make ourselves valuable.
